

# NETAJI NAGAR DAY COLLEGE

## STUDENT FEEDBACK REPORT (2021-2022)

Given that it is simple to collect information digitally and also saves a significant amount of important resources such as time and papers, each of the students were provided with a link to a Google form to provide feedback. The students were presented with a questionnaire including around 8 questions that asked them a diverse range of questions. Each question's reply is presented in a tabulated manner, as well as the total number of responses obtained for every question. A pie diagram was created after analysis of the responses to each question. For every question, the student submitted a total of  $(819+818+818+814+815+812+817+818) = 6531/8$  replies, or, on average, 816.375 responses per question. In accordance with the gathered data, the following details were noted:
