General comments from the Teachers

1. For a practical based science subject, finishing syllabus in this semester system is extremely hectic where a teacher has many administrative, official, exam related, promotion related, excursions and many other duties to fulfill in the same time frame.
2. Industry academia gap needs to be bridged.
3. Practical part of the syllabus should be more enriched.
4. Practical application orientated training is needed in frequently basis.
5. More Industry linked courses and provision for internship for all competent and capable students can be motivating.

6. Load of syllabus is probably high; the contents may be reduced as per students' intelligence level and/ or study tenure per semester.
7. Long excursions should be included in the syllabus in the even semesters of the syllabus of Botany.
8. Whatever the syllabus, the question pattern needs to be kept in mind for competitive exams. And MCQ type questions need to be increased. This will increase the perfection of the students.
9. Workshops and seminars are required for teachers for the betterment of teaching learning process.
10. The syllabus is vast but few topics should learn with depth which is beyond the scope due to time constraints.
